

**TEST BOAT:**  
**JEANNEAU SUN 2000**

Length: 6.5 m

Width: 2.5 m

Displacement: 1500 kg

**FLIN**

**TORQEEDO TRAVEL 1003**

Input power → 1000W

**TORQEEDO CRUISE 2.0**

Input power → 2000W

## TORQEEDO TRAVEL 1003 vs. TORQEEDO CRUISE 2.0

The graph shows that the Torqeedo Cruise has a slightly better efficiency at low speeds. From a boat speed of about three knots, the Torqeedo Travel performs significantly better. At a speed of 4.5 knots, the Torqeedo Cruise requires about 250W more power than the Torqeedo Travel, which of course has an effect on the range.
